

The purpose of me purchasing XM Radio was for the quality of content without the clutter of advertising. Just music, sports, weather, traffic, etc. The XM radio has a wide variety of content that appeals to my entire family. We pay to have these services at any place or at any time and do not feel that the FCC should ban something that we pay for plus something that adds value to society. Please reject the NAB's petition 04-160 and support XM Radio's ability to provide programming that we demand and deserve.
